

International Journal of Mathematics and Statistics Invention

e-ISSN : 2321 - 4767 p-ISSN : 2321 - 4759

Contents :

On some decompositions of nano * - continuity <i>J. Jayasudha, T. Rekhapriyadharsini</i>	01-06
Some Algorithms for Minimum Cost Flow Problems <i>Mobin Ahmad</i>	07-11
Comparison between Cluster Techniques for Clinical Data <i>Ahmed Mohamed Mohamed Elsayed</i>	12-33
Note on Nice Elongations of QTAG-Modules <i>Fahad Sikander</i>	34-37
First and Second Acceleration Poles in Unitary Geometry Homothetic Motions <i>Hasan Es</i>	38-46
Deterministic Mathematical Model of Tuberculosis Disease with Treatment and Recovered Groups <i>Gilbert, F. M., Ihejirika, I., Inyama, S. C., Oname, A., Mbachu, H. I, Uwakwe, J. I.</i>	47-60
Certain Linear Generating Relations Associated With Bedient's Polynomials <i>M.I.Qureshi , Shabana Khan, Deepak Kumar Kabra, Yasmeen</i>	61-69
A Note On Control Charts Statistics On Individual Observations <i>Claude R. Superville, PhD, FRSS, FIMA</i>	70-74
Math model to predict severity of heart complicationin diphtheria patients <i>Herlina Dimiati, Samsul Anwar, Raihan</i>	75-79
Numerical simulations for the protein mRNA coupled equation <i>Hernán Oscar Cortez Gutiérrez, Milton Milciades Cortez Gutiérrez, Liv J.Cortez Fuentes Rivera, Girady I. Fuentes Rivera, Deolinda E. Fuentes Rivera Vallejo</i>	80-82
Effect of Unethical Recruitment and Selection Practices On Organizational Sustainability: A Case Study of Selected Organizations in Kericho and Nakuru County, Kenya <i>Dr.Wilter Rop, Dr. Hellen Wothaya Sang</i>	83-90
The Use of Adomian Decomposition Method in Solving Second Order Autonomous and Non-autonomous Ordinary Differential Equations <i>Anthony Anya Okeke, Pius Tumba, Jeremiah Jerry Gambo</i>	91-97

IJMSI
Volume 7 ~ Issue 1 - (January - 2019)
